FINANCES and MARKETS

[Republican A. P. Leased Wire]
NEW YORK, May 23. (Wall Street)
The same conditions and tendencies
which characterized the recent ad-
vance in quoted values were prevalent
again today. Speculation ran largely
to the railway list with a new high
record for Reading and best prices of
a year or more for other issues of the
same class. Recognized war shares
were lower by a point or two most of
the active session.
Mexicans were restored to specula-
tive favor, largely as a result of the
absence of further disturbing advices
from that country, Mexican petroleum
quitting more than 2 points, with al-
most three for American Smelting.
Coppers as a group continued back-
ward, however, and the zinc issues
shed after some early strength.
Automobile shares were the specu-
lar feature, General Motors advanc-
ing 55 points to 515 with 3 1/2 for Stue-
gaber, while Willys overland on its
6 1/2 point gain to 276 1/2 and Chalmers
Motors 3 1/2 rise to 100 1/2 constituted
new records.
Reading's gyrations were the cause
of much unsettlement among standard
stocks, following its early rise to the

new maximum of 110 1/2 a point over
its previous record. Its contribution
to the local was again out of all pro-
portion, amounting to about 130,000
shares, or fifteen per cent.
Other dividend paying rails, includ-
ing Union Pacific, St. Paul, Atchafalaya
were higher by 1 to 2 points at their
best, but succumbed to steady profit
taking and short selling in the after-
noon.
United States Steel seemed to be
singled out by the short interest at
no time keeping pace with other fav-
orites. Bethlehem Steel also was
heavy on limited dealings.
Total sales of stocks amounted to
\$40,000 shares.
Incidents bearing upon the market
included Northern Pacific April state-
ment showing a net gain of \$1,498,000
and an additional gold import from
Canada.
The bond market was firm. Total
sales par value \$4,550,000.
United States bonds were un-
changed on call.

CHICAGO GRAIN

CHICAGO, May 23.—Renewal of
crop damage reports from the south-
west led to something of an upturn
today in the price of wheat after an
early setback. The market closed
steady, May at \$1.09 1/2, July at \$1.09 1/2
and \$1.10. In corn the outcome was again

SLANG PROVOKES INQUIRY INTO LIFE OF A WITNESS

George Huckaby Uses Word
"Bo," Pearce-Moran At-
torneys Raise Point;
Brakie Explains How He
Came to Say It

Because George E. Huckaby, com-
plaining witness in the case of the
state versus J. J. Moran and Frank
Pearce charged with assault with a
deadly weapon used the word "bo" in-
stead of hobo, the attorneys for the
defense asked him to tell the story of
his life.

"He uses words of the underworld,"
they argued. "Every phase of his past
life is material. It is his character
against the other man's in a case of this
kind."

Assistant County Attorney G. S.
Cunningham objected and Judge De-
Souza was tempted to say that if a
man's whole life and character were
gone into, few men would go on the
witness stand.

30 cents down.

Misgivings in regard to the Kansas
crop had a good deal to do with
turning sentiment to the bull side of
the wheat market. Bulls appeared at
a disadvantage however, until the
market had declined to a level that
was 10 1/2 cents under the high point
reached about a week ago.

Corn rallied with wheat. Oats
priced averaged lower as a result of
favorable crop reports from the large-
est producing states.

Declines in the value of hogs and
of cotton seed oil weakened provisions.
On the downturn, however, com-
mission houses as well as shorts
swung to the buying side.

Huckaby is the brakeman of the
Santa Fe who put the two men off
the train at Wickenburg when they
attempted to steal their way to Phoe-
nix. After putting them off Moran
drew a gun on the brakeman and
Pearce his companion urged him not
to fire. In self defense Huckaby
armed himself with rocks. It was de-
scribed as a "near fight" by Brake-
man Macy who witnessed the dis-
turbance.

The case against Pearce was dis-
missed and Moran was held to an-
swer to the superior court in the sum
of \$600 bail.

As the men passed out of the court
room a new complaint was sworn out
against them with having fictitious
checks in their possession. The Re-
publican recently printed the story of
the arrest of the men and the find-
ing of a number of checks on Moran
signed by his alleged father. The
Prescott bank on which the checks
were made had no such account it is
understood nor had there been such a
person in that city as "E. J. Moran."

HIGH GRADE ORE TO HAVE LOWER RATES

Corporation Commission Grants Re-
quest of Railroads to Establish
Commodity Rate

The corporation commission yester-
day granted permission to several
railroads in the state to reduce their
rates on mineral ore in excess of one
hundred dollars a ton valuation from
points on the S. F. P. and P. lines and
the main line of the Santa Fe, includ-
ing Wickenburg, Clarkdale, Kingman
and Chloride to Douglas, Hayden and
Sasco.

In a statement made yesterday
afternoon Rate Expert Betts of the
corporation commission stated that it
indicated to him, that the making of a
new rate on ore of that class, meant
that there was unusual prosperity in
the small mining camps near those
towns. Heretofore, there has been no
need for a commodity rate on ore in
excess of one hundred dollars in valua-
tion, as there was not enough of it,
and it was all shipped under the class
rate.

The reduction of the rate, will be a
great boon to prospectors, who are
struggling to open up their prospects,
and who are depending on the high
grade ore they get from their shafts to
keep operations going.

The commission also granted per-
mission to the Arizona Eastern to
establish a rate for gravel and sand
from Tempe to Hanson Junction of
35c per ton. Renewed building opera-
tions in the vicinity of Hanson Jun-
ction, made it imperative that a lower
rate be established.

MABEL TALIFERRO
COLUMBIA TODAY

The Metro people add another star
of the first magnitude to their al-
ready complete list, when Mabel Tal-
ferro, who is recalled for her creation
of the part of Polly in "Polly of the
Circus" on the legitimate stage some
years ago, comes in her first ro-
man play. The picture is called "Her
Great Price." There will be of course
a tendency to jump at the conclusion
that a woman is going to be sent on
a journey of shame. Perhaps she is.
That is the theme of many stories
just now and the makers of pictures
lean toward the popular topic for
their inspirations, but this is differ-
ent. To judge of this woman it will
be necessary for the reviewer to judge
her from many angles. Suffice "Her
Great Price" is the best novelty story
of the year. Not in a mere state-
ment but from the fact that there has
never been a story on the screen just
like it. It is different and those who
remember the dainty Mabel Talferro
will find that this play gives her a
chance to equal the best work she
has ever done. If the reviewer can
guess the outcome of the "price" the
heroine is to pay the greatest detest-
ative in the world will have in submis-
sion to the loss of his laurels. "Her
Great Price" will serve two purposes,
to introduce Miss Talferro on the
Metro program and to refute the idea
that there is nothing new under the
sun. Mrs. and Mr. Sidney Drew in
a comedy reel "The Swooners" added
to the program. Mutt and Jeff are
with us again Friday and Saturday.

CHARLOTTE WALKER
IN FAMOUS STORY

Theodore Roberts, who plays the
role of old Judd Tolliver, the leader of
the moonshiners, in the Lasky pro-
duction of "The Trail of the Lonesome
Pine," a Paramount picture, will be
seen at the Arizona today and tomor-
row, with Charlotte Walker in her
famous role of "June," had a tub of
moonshine whiskey presented to him
by some unknown person while the
company were in the mountains film-
ing the exterior scenes.

The company lived at a mountain
summer resort and each member of
the organization had a cabin to him or
herself, but all dined in the big rustic
dining room in the center of the
cluster of cabins. One evening Mr.
Roberts was sitting in his cabin writ-
ing letters when he heard a knock at
the door. He called "come in," but
no one entered. Curious, he opened
the door, expecting to greet one of
the members of the company. No one
was there. Glancing down at the
step he noticed a gallon jug; upon
investigation he found attached to the
corner stopper in the jug a piece of
triangle, the leading characters are a
premier in which was scrawled, "to Mr.
